Wednesday, September-20-17

To whom it concerns,

The property at the west end of our street (Simcoe Street Stayner Ontario) has been sold and is subject to building a residential complex. My understanding is that the (entrance and exit) be on Scott Street, not Simcoe. This may direct a lot more traffic from west to east on Simcoe Street do to exiting to Hwy 26 East. We did move to Stayner and choose Simcoe Street for it is a quiet Street. We do not want to see this being changed and therefore am against the entrance, exit onto Simcoe Street Stayner Ontario. Any further information, be free to contact myself or my wife.

Dist Sylvier bluesveld

Thank You,

Sincerially,

Roy & Sylvia Diesveld

COMMENTS: We	e are very concerned about the safety of the area if thi	s development
goes through. The co	corner at Simcoe St. and Louisa St. is already a safety ha	zard but
adding in a street at	the end of Simcoe St. is just a disaster waiting to happe	en. With this
many housing units t	there is bound to be a lot of children on bicycles comin	g out the
street and possibility	y of them getting hit is very high. Since the street in the	e subdivision is
narrower there won'	't be room for extra parking thus people will park on Si	mcoe Street
making it even more	e unsafe. The setup of the development doesn't look b	ad it is just in a
wrong location.

MUNICIPAL RE-ZONING- STAYNER

Having these rental units at the end of Simcoe St. is really going to clog up a low density-high-end residental area with too much traffic, not enough over-flow parking and serious problems with accessing and exiting Dominion and Louisa Sts.

This is a nebourhood with very expensive houses and the values will drop with this townhouse development.

In Ottawa, I lived in these type of rental townhouses and even though they were in their separate elongated oval street, they still were con gested with parking problems and had some access and exit problems to their feeder street. Much better setup than here and didn't impinge on the atmosphere of a low destiny, quiet area as it does here.

I am absolutely against this re-zoning. We moved into this area because of the character of this residential area and this certainly changes its nature drastically.

Wallowison 4 October 2017

We are not in favour of multiple family dwellings being built in existing, established single family neighborhoods.

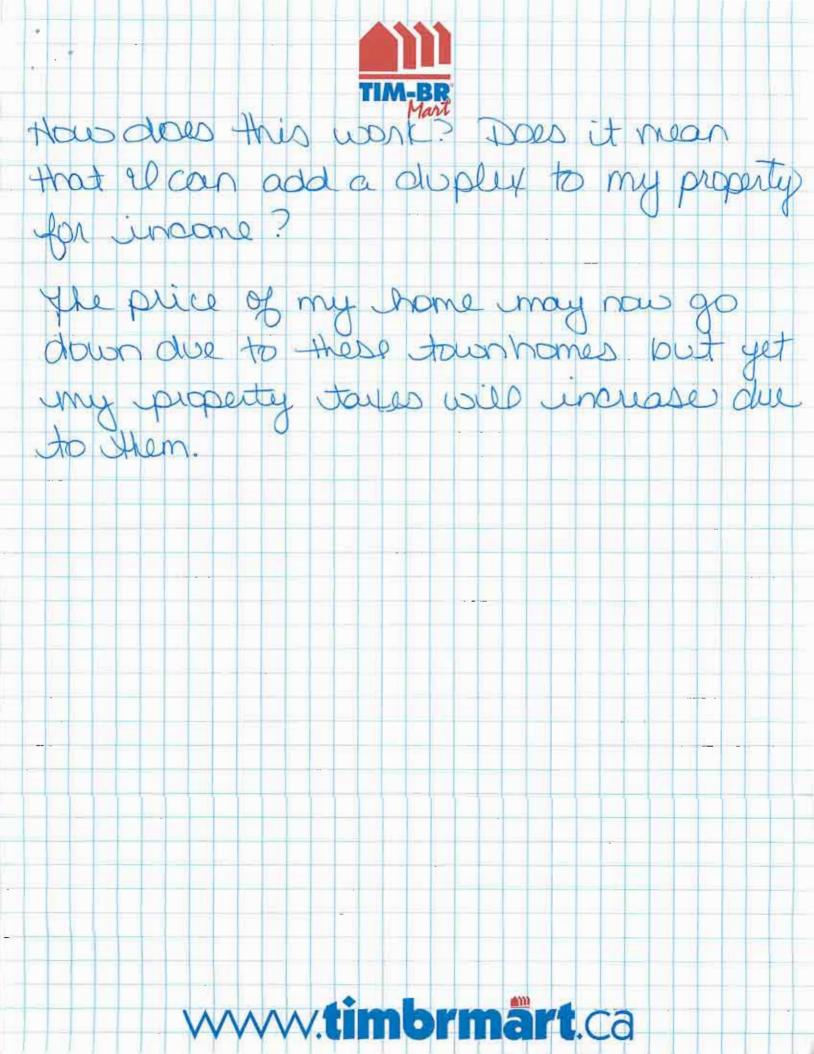

This will result in an increased amount of traffic on Dominion Drive which is a narrow street without sidewalks and restricted to a single lane at the Lamont Creek bridge. This will affect the safety of pedestrians including school children and seniors from Blue Mountain Manor who use this street multiple times a day.

This street that at one time ended at Hamilton Drive has already encountered a huge increase in traffic.

• Officially my wife and I are against the proposed development for the Simcoe Street Subdivision.

To be clear, we are not against development or even the development at that location however there are a couple of concerns that we simply must express and that would need to be addressed before we would change our position into one of support.

First, routing all of the traffic on to Simcoe street is a ridiculous plan. The majority of the potential buyers who will take residence there will be looking to get to a highway or main thoroughfare when coming or going and forcing them to meander through the subdivision streets is inefficient and less safe for the existing residence and their families. A potentially simple fix would be to change the access street to Scott street. In addition, we have concerns that having a single point of entry and egress to the development makes it more difficult for first responders to access the residence in the proposed development.

Lastly the proposed development utilizes lot densities that are typically found in the city. It is clear just by looking at this proposal that this is an urban /city builder who is more concerned with maximizing their investment and getting out of Dodge than they are with producing a sustainable development that will serve all the residents of Stayner and Clearview for decades to come.

It is the responsibility of Council to ensure that there is a path for growth in Clearview yes - but more importantly that this path for growth yields no negative impact on the residences and better yet, supports all the residents and way of life that attracted all of us to Clearview in the first place.

Rossalyn Workman Development Planner Township of Clearview 217 Gideon Street Stayner, ON. LOM 1S0

RECEIVED

OCT 06 2017

CLEARVIEW TOWNSHIP PLANNING & DEVELOPMENT DEPT.

Dear Ms. Workman,

RE: Simcoe Street Subdivision File #2017-029

At a meeting of concerned residents in the neighbourhood of the proposed zoning change and subdivision proposal, the desire to raise a petition in opposition to the proposal was evident, but there was concern that some who would sign the petition would also like to comment about their concerns.

It was decided that individual forms would be used rather than the traditional single sheet style of petition, to provide sufficient space to allow comments from those who wished to do so.

The attached are the forms that have been received to date and we ask that the parties who have signed them be added to the list of residents who receive future mailings relative to issues related to this file.

Sincerely,

Bob Charlton 225 Simcoe Street, PO Box 1134

comments: Not only does this development destroy the Small town atmosphere, but it dramatically
increases the traffic Flow, destroys wildlife
and does not fit in the existing neighbourhood
I am extremelly disappointed in crearview Townships development proposal.

COMMENTS: This area is better suited to single
turily homes. Tour houses are better situated
family homes. Town houses are better sittuated West end of town where you have already
started
