Madam, just amazed that this festival got permission, and a public consultation after the fact it was approved, I ask these questions for you to prepare answers at that public meeting.

An event of this size at a time when weed is legal and people will bring booze and with that deadly mixture trouble will follow what security issues have been made by the organizers given we only hav 2 cops and they will have better things to do. Have you given thought that the new drug laws that will be a new challenge.

Will other first responders and hospitals be on standby not at our expense.

This will attract a lot of bikers, each one polluting as much as 40 cars, that will be a lot of damage to the air we breathe.

What are the other planned events after Roxadus.
