

Wood Stove Information Guide

Wett Inspections for free standing wood stoves, wood burning fireplace inserts and chimneys.

When is a building permit required.

- For the installation of a new or used wood stove or fireplace insert.
- For the installation of a new chimney.
- For a Factory-built fireplace or hearth mount stove.

Drawing requirements for a building permit application.

1. Completed building permit application and applicable fees.
2. Two copies of drawing showing location of the wood burning appliance and chimney, also location. e.g., basement, main floor, or garage.
3. Installation manuals for stove and chimney to be on site for inspection.
4. Wett certified installers is always a good option when having a wood burning appliance installed. These installers can be recommended at time of purchase or found online. www.wettinc.ca
If a Wett certified installer is used, please retain a copy of certification for our inspection and files.
