## **Introduction**

---

The Accessibility plan will address the specific accessibility requirements in relation to the 2026 Municipal and School Board Election in the Township of Clearview.

The Township of Clearview has made great efforts in promoting a barrier free community. In an effort to ensure that the 2026 Municipal Election is consistent with the core principles of the Accessibility for Ontarians with Disabilities Act, 2005 (AODA), this planning document was developed in advance of the election in order to identify measures to be taken during the Election process and to be reported to Council following the Election.

## **Objectives**

---

This plan is intended to highlight measures that the Township of Clearview will implement to ensure equal opportunity for all electors and candidates. These objectives include:

- That persons with disabilities are able to independently cast their vote and verify their selection.
- That persons with disabilities have full and equal access to all information on where and when to vote and on eligible candidates.
- That persons with disabilities can fully participate in the Municipal Election as an elector, candidate, or election official.
- That efforts are made to ensure that electors with disabilities are aware of the accessibility measures available via channels such as the newspaper, media launches, the Township of Clearview's website and social media.
- That all voting assistance locations are accessible.

## **Development of the Plan**

---

This plan is a "living" document which will be improved and updated as best practices are identified and new opportunities for improvement arise. In order to develop the plan below, several steps were taken to ensure that statutory requirements were met, and a feasible implementation plan was in place. During the development of the 2026 Municipal Election Accessibility Plan, the following steps shall be implemented:

- Review and analysis of documents, policies and other supporting materials from AMCTO, neighbouring municipalities, the Ministry of Municipal Affairs and Housing, technology suppliers and other various stakeholder groups.
- Establish staff training standards and practices directly related to the Election to ensure that people with disabilities are able to vote in a positive customer service environment and ensure that all Election Officials recognize that a voter's needs shall be accommodated.

## Voting Methods

---

For the 2026 Municipal and School Board Election the Township will be working with Simply Voting to provide to eligible voters, internet and telephone voting. These voting methods provide the convenience and independence of voting from anywhere with connection to the internet and access to a telephone.

Everyday tools like computers and other aids can present accessible opportunities for persons with disabilities to accomplish more, while being consistent with the principles of independence, dignity, integration and equal opportunity.

### Internet Voting

The Simply Voting system provides voters with the capability to vote from the comfort of their own home through internet voting or by telephone. Voting from home eases the voting process for persons with disabilities who may have mobility restrictions, visual impairment, and/or have a difficulty securing transportation to an in person voting location.

Additionally, persons who have assistive devices set up in their homes can now use them to assist with casting a ballot privately and independently.

By allowing persons with disabilities to vote from any location and from a selection of methods, there is an increase in the capability for the voter to vote without any assistance. This provides persons with disabilities the same independence and privacy in participating in the election as other voters.

Eligible voters may vote by telephone or online, using a smart phone, tablet device, gaming device or computer and any accompanying assistive devices or software, along with their PIN and other qualifying information (i.e. possibly date of birth) to access the internet address provided in their Voter Instruction Letter.

For those individuals without means to access voting via the internet from the comfort of their own home, or who require the assistance of a trained Election Official, Election Assistance Centres will also be equipped with areas for in-person internet voting opportunities via a laptop or tablet.

The Simply Voting platform is regularly audited against section 508 (US standards) and WCAG 2.1 accessibility requirements (Ontario standards), with a third party reviewing the voting website for conformity with provincial AODA regulations and compatibility with screen reading technologies. The interface of their voting website is audited through AccessiBe which provides a Voluntary Product Accessibility Template and Accessibility Conformance Report.

## **Election Services Centre(s)**

---

Election Services Centre(s) during the voting period will be equipped to facilitate revisions to the Voter's List as well as provide in-person internet voting using a laptop or tablet. An accessibility assessment of each physical location will be conducted. The following considerations are taken into account when determining which location(s) will be used. For the purpose of this plan, the location includes the exterior parking and walkways associated with the location. The locations will be advertised on the Township of Clearview website, social media accounts, and in the local newspaper(s).

### **Accessible Route to Entrance and Exit**

The route to the entrance of the Election Services Centre(s) shall be unobstructed and accessible. The route shall be wide enough to allow for an individual using a wheelchair, mobile equipment, other assistive device, or service animal to travel safely. An easily navigable route will be marked for entry into the voting location and into the voting area within the location. The voting area will be identified with clear and understandable signage.

Doors into the Election Services Centre(s) shall be accessible and easy to open or shall remain propped open for the duration of the voting location hours. Routine checks of entrance and exit routes will be made throughout the hours of operation.

### **Parking**

Accessible parking shall be available at all Election Services Centre locations. The designated parking space(s) shall be clearly marked with the International Accessibility Symbol and will be on firm and level ground, close to the entrance of the voting location. Routine checks will be made to ensure all entrances remain barrier free through the course of the day.

### **Interior Voting Area**

Access to the interior portion where internet voting can be facilitated will be level and easily traversed. Any doormats or carpeting will be level with the floor to prevent potential tripping hazards. All voting areas are to be well lit, and seating will be made available.

## **Voting Assistance**

---

### **Support Person/Friend of the Voter**

Pursuant to the Township of Clearview Accessible Customer Service Policy, people with disabilities shall be permitted to be accompanied by a support person at any Election Services Centre location. If the designated support person and/or 'Friend of the Voter' will be assisting with voting, they will be administered an oath of secrecy/confidentiality by an Election Official prior to providing any such assistance.

## Service Animals

Pursuant to the Township of Clearview Accessible Customer Service Policy, individuals requiring service animals are permitted to be accompanied by a service animal at all Election Services Centre(s).

## Election Officials

At voting locations, upon request, Election Officials are available to assist any voter who requires assistance in casting their online ballot. All individuals working in the capacity of an Election Official are formally appointed as such and administered an oath of secrecy prior to voting day. Prior to entering the voting booth, the Election Official shall, in conjunction with the elector, determine the extent to which he/she needs assistance and the best way in which this assistance can be provided.

## Assistive Personal Equipment

Electors with disabilities may use assistive personal devices including wheelchairs, walkers, white canes, walking canes, note taking devices, portable magnifiers, recording machines, assistive listening devices, personal oxygen tanks and devices for grasping at the Election Services Centre(s).

## Vision Loss

Each Election Services Centre will be equipped with magnifying sheets to assist an individual with low vision.

## Hearing Impaired, Deafness and Hearing Loss

Each Election Services Centre will be equipped with a pad of paper and pen to communicate with electors with hearing impairments, if required.

## **Candidate and Registered Third Party Assistance**

---

Candidates and scrutineers are permitted to be accompanied by a service animal at all Election Services Centre(s) and other designated election locations.

The Township will also work with candidates and/or registered third parties who require mandatory election documents, forms and materials in an alternate format.

In accordance with section 88.20 (8) of the Municipal Elections Act, 1996, expenses directly related to an individual's disability which would not have been incurred if not for the election, are not subject to the spending limit if they are incurred by a candidate or a registered third party who is an individual with a disability.

## Election Official Training

---

The Township of Clearview will make every effort to utilize Township resources, including staff, to be Election Officials. As a requirement under the AODA, all staff members have taken accessibility training, including accessible customer service.

For any additional Election staff that need to be recruited, part of the onboarding process will be the completion of accessibility training including customer service, the Human Rights Code and the AODA, and an overview of the Integrated Accessibility Standard Regulations.

## Communication

---

The 2026 Municipal and School Board Election Accessibility Plan will be made available at the Clearview Administration Centre, 217 Gideon Street, Stayner and by way of the Township of Clearview's website [www.clearview.ca](http://www.clearview.ca) . Alternative formats will be made available upon request. The Plan will also be provided to all registered Candidates to assist with communicating supports to electors.

### Election Materials

The Township of Clearview is required, as per the Accessible Customer Service Standard, to provide a copy of a document to a person with a disability, or the information contained in the document, in a format that takes into account the person's disability.

### Alternate Formats

Alternate formats are other ways of publishing information besides regular print. Some of these formats can be used by everyone while others are designed to address the specific needs of a user.

The Township of Clearview and the person with a disability may agree upon the format to be used for the document or information.

### General Election Materials

**Large Print:** Printed material generated by the Township of Clearview can be made available in a font (print) size that is 16 to 20 points or larger.

**Website:** Information generated by the Township of Clearview on the website in relation to the election will be compliant with WCAG 2.1 and allow for assistive software to be utilized. In addition, website font can be adjusted within the browser's functionality to aid the user in reading the information.

## Service Disruptions

From time to time and/or for unforeseen circumstances beyond the Township of Clearview's control, temporary service disruptions may be experienced. In the event of a temporary accessible service disruption, Election Officials will commit to making reasonable efforts to ensure that services are reinstated as quickly as possible and that alternative services are provided where feasible.

In these instances of service disruptions, the Township of Clearview shall provide reasonable notice in the event of a planned or unexpected disruption in the facilities or services usually used by persons with disabilities.

Notice of these temporary disruptions shall be provided in a conspicuous place and manner at the respective location(s) and information shall also be posted on the Township of Clearview website. This notice shall include information about the reason for the disruption, its anticipated duration, and a description of alternative facilities or services, if available.

Accessible services in relation to this plan include voting places, election materials and/or voting provisions for Electors with disabilities at the voting place.

In the event of disruptions to service or unforeseen circumstances that affect the accessibility of Election Services Centre(s) during the advance vote or on Election Day, notices of disruption will be posted in real time on the Township of Clearview's website.

## Candidates

---

Candidates must also have regard to the needs of electors with disabilities. Campaign offices, election materials and canvassing should all be reviewed in order to ensure that they are fully accessible. The Accessibility Directorate of Ontario, Elections Canada and AMCTO have released several quick reference documents to assist candidates with accessible election considerations:

- [Count Us In: Removing Barriers to Political Participation - Quick Reference Guide to Accessible Campaign Information and Communication](#)
- [Accessibility Info Sheet for Political Parties and Candidates](#)
- [Count Us In: Removing Barriers to Political Participation - Quick Reference Guide to Accessible Constituency, Riding Association, Central Party and Campaign Offices](#)
- [AMCTO The Candidates' Guide to Accessible Elections](#)

## **Reporting**

---

Pursuant to Section 12.1 of the Municipal Elections Act, 1996, within ninety (90) days after voting day, the Township of Clearview Clerk shall submit a report to Council about the identification, removal and prevention of barriers that affect electors and candidates with disabilities.
