Building Inspections Deck / Sign / Fence /

Solar Panel / Wind Turbine / Designated Structures

During the course of construction, the Building Inspector must be contacted at the completion of each of the following phases so that the Inspector can make these inspections in accordance with the Building By-Law.

Building Inspections

- 1) Excavation for footings when footings are formed and reinforcing in place, prior to pouring of concrete.
- 2) Building framing is completed.
- 3) Final inspection prior to use.

Note:

For Solar Panels, Wind Turbines, and Designated Structures a final report is required from your Engineer prior to Final Inspection.

Requesting Inspections

When requesting inspections, please quote Building Permit Number and allow a minimum of 48 hours' notice.

Inspections may be requested by either dropping into the municipal office or telephoning 428-6230.

Please note that if an inspection is requested prematurely an additional inspection fee may be required.
