

CLEARVIEW

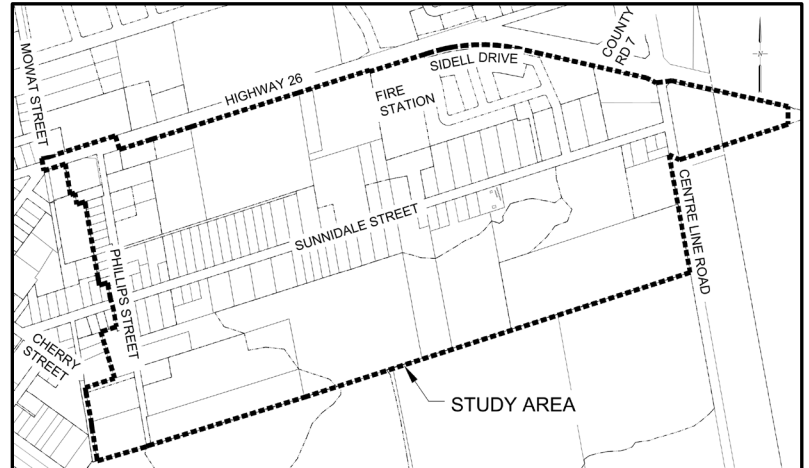

Notice of Public Information Centre Municipal Class Environmental Assessment South East Stayner Sanitary Servicing, Township of Clearview

The Study

The Township of Clearview (Township) is initiating a Municipal Class Environmental Assessment (EA) to address the need for Sewage Collection to service the existing unserviced area in the south east quadrant of Stayner, including the proposed development referred to as 'Manortown Homes'. The approximate extent of the Study Area is shown on the map.

Options for service include; 1) Do Nothing, 2) Build a new pumping station on a new site to service the study area, 3) Build a new pumping station on a new site to service the Manortown Homes development.

The Process

The Study will follow Schedule B of the *Municipal Class Environmental Assessment* (Municipal Engineers Association, October 2000, as amended in 2007, 2011, & 2015) process, which is an approved process under the *Ontario Environmental Assessment Act*. The study will evaluate alternative solutions with consideration for the natural, cultural, technical and economic environment, and recommend a preferred solution in consultation with the public, Indigenous communities and agencies. At the conclusion of the study, the process will be documented in a Project File Report (PFR), prepared for public review.

Opportunity to Participate

Consultation is important to this study. The Township would like to ensure that anyone interested in this study has the opportunity to provide input into the planning and design of the project. Due to the current closure of public spaces for large gatherings, a virtual Public Information Centre (PIC) will be held on the Township website to describe the study, the proposed alternative solutions, identify next steps in the process and gather and respond to public comments. PIC materials pertaining to the study are available online at <https://www.clearview.ca/news-events-meetings/special-projects/environmental-assessment-stayner-sanitary-servicing>, starting **July 2nd 2020**. Your comments on the project and information materials are encouraged by **August 4th, 2020**. Following the PIC, and in consideration of comments received, the final preferred solution will be identified.

Please contact either of the following Project Team members if you are unable to access the online information concerning this Study or if you would like to be added to the Project Contact List to receive future project notices:
