Dear Council,

Thank you for passing the cannabis interim control bylaw last year. It was a great move and provided a great deal relief for the community. I wish that I had a clearer understanding as to how these "medical" grow-ops exist to produce such a large amount of cannabis for an individuals. Hopefully the federal government will correct this mistake.

In the interim I am strongly against any more cannabis production and processing facilities in Clearview Township. The stench of these facilities is skunk like and must be eliminated. The lighting is very unrural and must represent a detriment to local residents, flora and fauna. Traffic patterns are strange and questionable. Have the repurposed buildings been fully inspected to pass all safety and employees standards? What is happening with the waste, How much water is being used and what is happening with grey water? Are we truly addressing the potential criminal element of these facilities?

I am in support of any measure that council can enact to prevent any more of these facilities.

We are looking forward to a longer term solution,

Sincerely,

John and Jo-Anne Kennedy
