It is the Owner's responsibility to implement, monitor and maintain all such works.

All material stockpiled for a period of 30 days or longer must be stabilized or re-vegetated to prevent erosion.

Every provision of this Agreement by which the Owner is obligated in any way shall be deemed to include works “at the expense of the Owner” unless specifically stated otherwise.

The Owners shall be solely responsible for the cost of the Works as estimated this Agreement. The Municipality shall not be required to pay any portion of the capital cost related to the Works unless otherwise expressly provided in this Agreement or as expressly required by statute. In the event that the Municipality incurs any expenses involving construction lien actions or any other actions respecting the construction of the Works, such expenses shall be paid by the Owner forthwith on demand.

G.2 Where the Owner is in Default of Payment of Costs

Where the Owner is in default of payment of any such costs and no securities provided in relation to this Agreement are available or are insufficient to cover such costs, the Owner shall pay to the Municipality any additional funds, the amount of which shall be in the Municipality’s sole discretion, within ten (10) calendar days or this shall become a default under this Agreement and the Owner agrees that any such costs will be deemed to be taxes to which the provisions of the *Municipal Act*, as may be amended from time to time, apply.

G.3 The Owner Shall Pay Costs of Enforcement

The Owner shall also pay the full costs for enforcement of this Agreement which be submitted to the Owner for reimbursement within thirty (30) days. As a default of this Agreement any such costs will be deemed to be taxes to which the provisions of the *Municipal Act*, as may be amended from time to time, apply.

G.4 Payment of Interest on Payment Demands

All expenses for which demand for payment has been made by the Municipality shall bear an interest rate of twelve percent (12%) per annum, calculated monthly, commencing thirty (30) days after demand for payment is made.

G.5 Owner to Pay Cost of all Services

The Municipality shall not be responsible for any of the costs of providing services to the Lands. All such costs shall be borne by the Owner. - (a) paved driveway approaches; and

The Owner acknowledges that notwithstanding that the above-noted services may be external to the Lands, it derives a direct benefit from the provision, construction and installation of such services and that the development proposed hereunder could not be accommodated without the existence of such services.

The Owner covenants and agrees to provide, construct and install the above-noted services to the standards and specifications required by the Municipality under the direction and supervisions of the Owner's Engineer who will certify completion of the services to the satisfaction of the Municipality.

The Owner covenants and agrees to construct or install all external works, services and facilities to the satisfaction of the Municipality, in accordance with all municipal specifications and in a good and workmanlike manner. **SCHEDULE “H”
THE OWNER’S INDEMNIFICATION OF THE MUNICIPALITY**

NOTE: **It is understood and agreed that this Schedule forms part of the Site Plan Agreement to which it is appended.**

H.1 Owner to Indemnify Municipality from All Claims and Costs

The Owner on behalf of themselves, their successors or assigns agree to indemnify and save harmless the Municipality and its agents, contractors and employees from all actions, causes of actions, suits, claims and demands whatsoever which may arise directly or indirectly from:

- (a) any claim(s) pursuant to the *Construction Lien Act*, as may be amended from time to time;
- (b) any construction being performed by the Owner, its agents and assigns pursuant to the provisions of this Agreement, and, on demand by the Municipality, the Owner will take such steps as may be necessary to immediately discharge all liens registered upon the services;
- (b) loss, damage, accident or injury or any kind whatsoever which may arise either directly or indirectly by reason of the Municipality approving the Site Plan(s) and works or entering into this Agreement, provided the subject matter of such action, suits, claims or demands was not caused intentionally or through gross negligence on the part of the Municipality, its servants or agents or subcontractors;
- (c) loss, damage, accident or injury or any kind whatsoever which may arise either directly or indirectly by reason of any work or service performed by the Municipality, its servants or sub-contractors in order to complete the work or services required to be completed under this Agreement, provided the subject matter of such action, suits, claims or demands was not caused intentionally or through gross negligence on the part of the Municipality, its servants or agents or subcontractors;
- (d) loss, damage, accident or injury or any kind whatsoever which may arise either directly or indirectly by reason of drainage from or the effects of drainage from, or onto, any Lands adjoining the Lands as a result of: the development of the Lands; and/or, implementation of the drainage plan or stormwater management plan; and/or the construction of any works, facilities or structures on the Lands and/or the use of the Lands;

- (e) by reason of the design, installation, construction or operation of any of the Public Works required under this Agreement, or by reason of the maintenance or lack of maintenance of such Public Works by the Owner pursuant to the terms of this Agreement or by reason of any defect in workmanship or material, until the Assumption of the Public Works by the Municipality; and,
- (f) all actions or claims relating to soil conditions and surface water and groundwater conditions on the subject Lands.

H.2 Impairment to Surface or Groundwater Quality or the Environment

Where the Municipality has a reasonable concern, in its sole discretion, which indicates a potential impairment to surface or groundwater quality or the environment associated with the development and operation of this facility, the Municipality shall have the right under this Agreement to request the Owner to provide any relevant existing information in its possession, including that of any agents/consultants or assignees, to determine whether the development is responsible for an impairment in water quality or environment. This requirement and any associated conditions however do not impart on the Municipality any responsibility for reporting of any impairment or impact nor any obligation to corrective measures. Those obligations shall be the Owner's.

H.3 Provision of Further Information by Owner

If requested by the Municipality in writing, the Owner shall provide the Municipality with any such relevant information in its possession which may include a environmental site assessment, hydrogeological study, well survey, water quality study, storage tank testing results or such other study as may have been prepared to investigate contamination of surface or groundwater as a result of the development of or use of the Lands. This requirement and any associated conditions however do not impart on the Municipality any responsibility for reporting of any impairment or impact nor any obligation to corrective measures. Those obligations shall be the Owner's.

H.4 Owner to Take Action in Event of a Spill

In the event of a spill of a pollutant, the Owner agrees that it shall be responsible for doing everything practicable to prevent, eliminate and ameliorate the adverse effect, or to do everything practicable to restore the natural environment. This may include, but not necessarily be limited to, the design, installation, and approvals for restorative or mitigative works, and such works shall be considered to be works for the purpose of this Agreement and shall be subject to all associated applicable requirements or restrictions of this Agreement.

H.5 Municipal Right to Compensation From Owner

The Owner also agrees that the Municipality shall have the right to compensation from the Owner:

- (a) for loss or damage of works incurred as a direct result of:
 - (i) the spill of a pollutant that causes or is likely to cause an adverse effect,
 - (ii) the exercise of any authority under this Agreement, or
 - (iii) neglect or default in carrying out a duty imposed or an order or direction made under this Agreement;
- (b) for all reasonable cost and expense incurred in respect of carrying out or attempting to carry out an order or direction under this Agreement or as ordered by the Ministry of Environment, or other responsible Provincial or Federal authority.

The Owner is not liable for works or compensation if they establish, to the Municipality's satisfaction, that they took all reasonable steps to prevent the spill of the pollutant or if they establish, to the Municipality's satisfaction, that the spill of the pollutant was wholly caused by,

- (a) an act of war, civil war, insurrection, an act of terrorism or an act of hostility by the government of a foreign country;
 - (b) a natural phenomenon of an exceptional, inevitable and irresistible character; or
 - (c) an act or omission with intent to cause harm by a person other than the Owner,
- or any combination thereof.

However, this does not relieve the Owner from liability for works, or compensation to the Municipality for loss or damage that is a direct result of neglect or default of the Owner in carrying out a duty imposed or an order or direction made under this Agreement; or from liability, in the event of an act of war, civil war, insurrection, an act of terrorism or an act of hostility by the government of a foreign country, for cost and expense incurred or, in the event of a natural phenomenon of an exceptional, inevitable and irresistible character, for all reasonable cost and expense incurred:

- (a) to do everything practicable to prevent, eliminate and ameliorate the adverse effect, or

- (b) to do everything practicable to restore the natural environment, or both.

For the purposes of this Agreement:

- (a) "restore the natural environment", when used with reference to a spill of a pollutant, means restore all forms of life, physical conditions, the natural environment and things existing immediately before the spill of the pollutant that are affected or that may reasonably be expected to be affected by the pollutant, and "restoration of the natural environment", when used with reference to a spill of a pollutant, has a corresponding meaning.
- (b) "spill", when used with reference to a pollutant, means a discharge,
 - (i) into the natural environment,
 - (ii) from or out of a structure, vehicle or other container, and
 - (iii) that is abnormal in quality or quantity in light of all the circumstances of the discharge.
- (c) "adverse effect" means one or more of,
 - (i) impairment of the quality of the natural environment for any use that can be made of it,
 - (ii) injury or damage to property or to plant or animal life,
 - (iii) harm or material discomfort to any person,
 - (iv) an adverse effect on the health of any person,
 - (v) impairment of the safety of any person,
 - (vi) rendering any property or plant or animal life unfit for human use,
 - (vii) loss of enjoyment of normal use of property, and
 - (viii) interference with the normal conduct of business.

H.6 Municipality Does Not Warrant Condition of Soils
